

Do you need an advanced UTI test?

Urine culture may miss up to 67% of organisms that cause UTIs,¹ and results can take 3-5 days. Resolve mdx is an advanced test that quickly determines what is causing your UTI and identifies antibiotics to treat your specific infection – all within 24-48 hours.

Top 4 reasons why urine culture may not help resolve your UTI

- 1. Slow results:** Results may take 3-5 days.
- 2. Limited detection:** Often misses organisms.¹
- 3. Inconclusive:** 52% of UTIs are caused by multiple organisms, which culture may report as “mixed flora” or “contaminated.”²
- 4. Incomplete picture:** Does not account for changes to antibiotic efficacy when multiple bacteria are causing the UTI.³

Resolve mdx
for Sexually Transmitted Infection

STI testing also available

For comprehensive results, Resolve mdx can be ordered with a new STI panel that tests for common Sexually Transmitted Infections.

Ask your doctor if including this option with your UTI test is right for you.

Resolve mdx
for Urinary Tract Infection

Are you experiencing UTI symptoms?

Resolve mdx delivers quick and accurate diagnosis and personalized antimicrobial options to resolve your infection

Resolve mdx quickly finds antibiotic solutions for your infection

How does the test work?

First, our laboratory uses PCR technology to identify the specific organisms that are causing the infection. Then, using a proprietary technology called ASTX™, we are able to determine which antibiotics will work against your specific infection.

PCR identifies the cause of the infection.

ASTX™ testing determines antibiotic options to resolve your infection.

Fast results delivered to your doctor within 48 hours.*

Specific cause(s) of infection identified, even when more than one organism is causing the infection.

Actionable and easy to understand report allows your doctor to make informed treatment decisions.

Personalized oral antibiotic options to better address your specific infection.

Antibiotic Stewardship. Nearly 50% of patients are prescribed the wrong antibiotic.⁴

Who would benefit from the test?

Resolve mdx has been developed especially for patients who have been suffering from recurrent, persistent, and complicated UTIs.

When will my doctor get the results?

Mdxhealth reports your results within 48 hours.*

Will my insurance cover Resolve mdx?

Mdxhealth will work directly with your insurance provider to coordinate coverage. The vast majority of patients are responsible for \$100 or less.

For questions about insurance, contact our Patient Advocate Team.
