

Do you need an advanced UTI test?

Urine culture may miss up to 67% of organisms that cause UTIs,¹ and results can take 3-5 days. Resolve mdx is an advanced test that quickly identifies organisms in the urine and provides targeted antibiotic options – all within 48 hours.

Top 4 reasons why urine culture may not help resolve your UTI

- 1. Slow results:** Results may take 3-5 days.
- 2. Limited detection:** Often misses organisms.¹
- 3. Inconclusive:** Up to 52% of UTIs are caused by multiple organisms, which culture may report as “mixed flora” or “contaminated.”²
- 4. Incomplete picture:** Does not account for changes to antibiotic efficacy when multiple bacteria are causing the UTI.³

Xpert One Support is founded on personal attention, responsiveness, and commitment to customer satisfaction.

Our Patient First Promise ensures mdxhealth tests are accessible and affordable for all patients. If you’re facing financial challenges, contact an Xpert One Support patient advocate to find the right assistance options for you.

Resolve mdx
for Urinary Tract Infection

Are you experiencing UTI symptoms?

Resolve mdx delivers quick and accurate diagnosis and personalized antibiotic options to resolve your UTI

Resolve mdx quickly finds antibiotic options for your UTI

How does the test work?

First, our laboratory uses PCR technology to identify organisms in the urine. Then, using a proprietary technology called ASTX™, we are able to provide specific antibiotic options for your doctor to consider for treatment.

PCR identifies the organisms in the urine.

ASTX™ testing helps determine antibiotic options to resolve your infection.

Results within 24-48 hours for quicker UTI relief/resolution.

Helps identify the cause of the infection, even when there are multiple organisms present.

Actionable and easy to understand report allows your doctor to make informed treatment decisions.

Personalized oral antibiotic options to better address your specific infection.

Antibiotic Stewardship:
Resolve mdx promotes the appropriate use of antibiotics.

Who would benefit from the test?

Resolve mdx has been developed especially for patients who have been suffering from recurrent, persistent, and complicated UTIs.

When will my doctor get the results?

Mdxhealth reports your results within 24-48 hours.

Will my insurance cover Resolve mdx?

Mdxhealth will work directly with your insurance provider to coordinate coverage. The vast majority of patients are responsible for \$100 or less.

For questions about insurance, contact our Patient Advocate Team.
